

On 18 Nov 2011, the official contract signing ceremony for C919 Middle Fuselage Final Assembly line project took place in Beijing in the presence company leaders from Shanghai Aircraft Manufacturing Company, Sinochem Group, Sinochem International Tendering Co. and Broetje-Automation from Germany. It is the first state of the art aircraft structure assembly line of this kind to be set up in China and seen as a milestone for the further progress of the C919 project.
